

# SCREEN CLEANER

PC-600 / -1000 / -1250 / -1500

PC1.14.1907.GB

*The PC screen cleaner is designed for pre- or fine cleaning, grading, and calibration of a large variety of products*

For capacity and all other specific information see the back page.

The PC screen cleaner offers the below features:

- PC-600/-1000: Inlet with feeding valve with counterweight.
- PC-1250/-1500: Inlet with feed roll with counterweight.
- Screen section consisting of one sieveboat with 1 scalping screen layer and 1 sand screen layer; both screen layers with manually adjustable inclination of 4°, 6°, 8°, or 11°.

- In total 4 screen segments with standard perforations above 2 mm; all screen segments with rubber ball cleaning.
- One fixed front outlet and two side outlets, which can be placed on either side of the machine.
- Fixed drive and motor.

The machine is of steel construction with sieveboat of waterproof laminated wood.

#### Options:

- *Sieveboat covering with aspiration spout*
- *Sieveboat with 3 end outlets [instead of basic construction]; Set-up 1: scalping outlet right, middle outlet fixed, sand outlet left; Set-up 2: scalping outlet left, middle outlet fixed, sand outlet right*

## EQUIPPED FOR CHANGE

We provide valuable insights, so you can make qualified decisions

**SCREEN CLEANER**  
**PC-600 / -1000 / -1250 / -1500**

**TECHNICAL SPECIFICATIONS:**

	<b>PC-600</b>	<b>PC-1000</b>	<b>PC-1250</b>	<b>PC-1500</b>
